Map of the Indian Walking Purchase, 1737

by LEWIS EVANS

This map is in the Logan Papers, Miscellaneous MSS., I. 119, in The Historical Society of Pennsylvania. The signature is faded but clearly legible: "L. Evans Exe. 1738." It is not clear why or for whom Evans prepared this map. It is not mentioned in any of the contemporary records pertaining to the Walking Purchase. The official map of that purchase was made by Benjamin Eastburn, Surveyor General of the Province, and it is his map that is usually referred to. There was also a draft of the Walking Purchase made by John Chapman, Deputy Surveyor for Bucks County. Inasmuch as Evans' map is found in the Logan papers, it may be that it was drawn up for James Logan. This reproduction is the same size as the original. Below is shown an enlarged, unretouched facsimile of the signature.
