Matthias Hollenbach being duly sworn deposes & saith that on Monday 22<sup>d</sup> of Decr 1828 Horace Parker came to me & wanted me to take some Medicine and I told him I would not. He told me he had some medicine the Doctor had left, & that I did not know what my case was. I told him I would not. He urged me to take it. Another Doctor had left it. Whether I took that I don't know. He then brought some more and urged me to take it. I told him I left my case with God. After I went to bed he made me take it. And it ~~run~~ went through me - split me down one half. And then he got another and a larger dose & gave it to me and I never got over it and never shall.

This was on Monday. He said he would come again. & last evening he came again. I got up last evening & got into a chair <sup>to wash</sup> as far as the paper Mill & laid. Parker came & asked me how I did. I told him not well & wanted to get up. He kept me in the dark & would not let me. Who should come in but Sally List. & asked me how I did and said I believe you don't know me & so when I came home Parker came again & wanted me to take more medicine. He would insure me it would do me no hurt. And I took it & found I was gone. Then came my Daughter Mary Ann Lanning & said she was going home & wanted to do something ~~from~~ for me. And said she wd give me some Medicine that would do me good. And they brought me some Fox <sup>or digitalis</sup> ~~glow~~ <sup>which would cure me</sup> - I heard them talking in the other room. I went out and there
