DT Essay

If I were to tell you that the entity or presence who has named himself temporarily as Deity is no less than a devil, you would not believe me.

Certainly, you would argue, the devil would not write in such a middle-of-the-road prose, and that is true to a degree. I can muster more than one style, but the fundamental error is still yours. Too much reliance is present that the Devil, if he exists, is all-powerful (which is a philosophical absurdity since God opposes the Devil with His powers.)

No, there is not only a Devil but the army of his devils—of whom I am one, and while I have many powers and live in general on a relation to

existence that is, in most regards, more penetrating than yours, still I would not say that I see myself as superior to men and women. I, too, have my lacks. For example, I cannot experience the emotion of joy.

In that sense, you would never wish to be like me.

[Go on to explanation. That success was no more assured for All.
