NOTES OF DICTATION FROM TAPE: FEB. 10, 06

These are notes from two of my notebooks.

FOR THE NOVEL

D.T. :

It is crucial to understanding ~~to~~ our relations with our clients ~~is~~ that devils
grow in wisdom and experience even as we develop better guidance for our
best clients. Be it noted that this is true even in active principle only for the
most accomplished devils and the most exceptional clients ~~(when he's~~
~~making the point??~~ ^{So} Voice not clear here.). Is that Adolf's development
depended on ^{mine} ~~my~~ development as well.

NOTE: This can go into the introduction of the Russian section

FOR THE NOVEL

page

Not all I learned in Russia would be of direct use later with Adolf. But then

a well rounded guide is more valuable under all circumstances.

FOR THE NOVEL

This note is about Preisinger. *being an Indian and he was a German*

"Now," he says to him, "I own your trail."

He says to Adolf: "Your father could hang from my arm and it would not

bend." *Adolf replies, "That means nothing." (page stops, starts again with*

word) "You think Indians went in for hanging? It was to own the

mind of their victims." Edmund starts to cry. "Shut up," says Adolf. "You

are a heart-killer."

FOR THE NOVEL

One time Adi makes a point of being an Indian and he scalps Edmund.

"Now," he says to him, "I own your brain."

"How can you?" asks Edmund, "You are my brother."

Adolf replies, "That matters nothing.." (tape stops, starts again mid

word) ... ^{"Why do"} that ~~you~~ think Indians went in for scalping? [?] It was to own the

mind of their victims." Edmund starts to cry. "Shut up," says Adolf. "You

are a snot-nose."

FOR THE NOVEL

Dream etching for Adolf on the death of Edmund:

"It is tied," says D.T. "to a false image of what his father did to him rather

than what he ^{Alois) Junior} did to ~~Alois, Jr.~~ That is now tied to Adolf's fear of his father's

beatings and it is also an ^{can incorporate} incorporation of Preisinger's belief that the will to

withstand beatings ^{can be developed. It} should also be tied to the dream etching that ^{Adi} he is the one

who killed Edmund and that is only possible when one is strong enough to

withstand whippings. Only those people are able of taking another person's

life without being judged, ^{are who} those ~~that~~ can withstand whippings."

FOR THE NOVEL

Before they go to the Custom's House Alois gives a quick history of Custom Houses to encourage Adolf. "I not only caught smugglers, but kept accounts." Which makes Adolf think that he'd rather be on duty outside.

Note that in this talk about the custom's house, alois could also engage in a considerable amount of talk about the history of custom houses which is there in Stark's book. Problems with money exchanged, how banking came out of Custom's Houses and so forth.

The clipping of coins.
 The banks of Europe began
 with 69,
 we wait the first to look
 for bargains in 400s of
 exchange
 How do you think it all began.
