"Art is inspiration to be one with beauty"
man on street

"I am inspired to be whatever my
imagination has captured for me"
mime - on stage

"I hope audience is moved to feel
life again." "Imagination keeps us away
from boredom"

"There's a kind of contribution you
you make to the world & the material
makes to you" - sculptor.

Reactions on faces of crowd - listening to
girl singing out of doors, people "involved"
bouncing on air mattress, Kids watching
paper bag players move cartoons, etc.

"Essence of life" - cookies (circles) and round
stained glass church window

Then "moving forward can be essence of keeping
one alive."

"conductor puts his feeling into the music &
wishes that it gets across to audience"

Robt. Edward Jones

You don't come to play
to see work, effort,
excitement that goes into
performance. You come to
be exhilarated, lifted,
transported.
